1. IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND OF THE COMPANY

1.1 Product name : MOLYKOTE(R) D-321 R ANTI-FRICTION COATING

1.2 Identified uses : Lubricants and additives

Uses advised against : None known.

1.3 Company : Dow Corning Europe S.A.
rue Jules Bordet - Parc Industriel - Zone C
B-7180 Seneffe
Belgium

E-mail address (Safety Data Sheet) : sdseu@dowcorning.com

Customer Service : English Tel: +49 611237507
Deutsch Tel: +49 611237500
Français Tel: +32 64511149
Italiano Tel: +32 64511170
Español Tel: +32 64511163

Fax: +32 64888683

1.4 Emergency Phone Number : Dow Corning (Barry U.K. 24h) Tel: +44 1446732350
Dow Corning (Wiesbaden 24h) Tel: +49 61122158
Dow Corning (Seneffe 24h) Tel: +32 64 888240

2. HAZARDS IDENTIFICATION

2.1 Classification of the substance or mixture

According to EU Directives 67/548/EEC or 1999/45/EC:

R10 Flammable.
R51/53 Toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.
R65 Harmful: May cause lung damage if swallowed.
R66 Repeated exposure may cause skin dryness or cracking.
R67 Vapours may cause drowsiness and dizziness.

2.2 Label elements

Labelling according to EEC Directive

Contains : Naphtha (petroleum), hydrodesulfurized heavy

Symbols : Xn Harmful.
N Dangerous for the environment.

R-phrases : R10 Flammable.
R51/53 Toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.
R65 Harmful: May cause lung damage if swallowed.
R66 Repeated exposure may cause skin dryness or cracking.
R67 Vapours may cause drowsiness and dizziness.

S-phrases:
S23(V) Do not breathe vapour.
S24/25 Avoid contact with skin and eyes.
S51 Use only in well-ventilated areas.
S60 This material and its container must be disposed of as hazardous waste.
S61 Avoid release to the environment. Refer to special instructions/Safety data sheets.
S62 If swallowed, do not induce vomiting: seek medical advice immediately and show this container or label.

2.3 Other hazards
Vapours may form explosive mixtures with air.
3. COMPOSITION / INFORMATION ON INGREDIENTS

**Chemical characterization:** Inorganic and organic compounds in mineral oil

**According to EU Directives 67/548/EEC or 1999/45/EC:**

4. FIRST AID MEASURES

4.1 Description of First Aid Measures:

On contact with eyes: Flush with water.

On skin contact: Flush with water.
SAFETY DATA SHEET
According to article 31 and Annex II of the EU REACH Regulation

Version: 3.3
Revision Date: 25.02.2013
Superseded date: 25.04.2012

MOLYKOTE(R) D-321 R ANTI-FRICTION COATING

If inhaled : Remove to fresh air. Obtain medical attention immediately.
On ingestion : Do not induce vomiting. Obtain medical attention.

4.2 Most important symptoms/effects, acute and delayed : Harmful: May cause lung damage if swallowed.
Repeated exposure may cause skin dryness or cracking.
Vapours may cause drowsiness and dizziness.

5. FIRE-FIGHTING MEASURES

5.1 Suitable extinguishing media : On large fires use dry chemical, foam or water spray (fog). On small fires use carbon dioxide (CO2), dry chemical or water spray. Water can be used to cool fire exposed containers.

Unsuitable extinguishing media : None known.

5.2 Hazards during fire fighting : Electrostatic charges may be generated during transfer of product from its container. Ensure that all equipment is electrically earthed.
Vapours may form explosive mixtures with air.

Hazardous Combustion Products : Thermal breakdown of this product during fire or very high heat conditions may evolve the following decomposition products: Carbon oxides and traces of incompletely burned carbon compounds. Formaldehyde. Sulphur products. Nitrogen products.

5.3 Special protective equipment/procedures : A self-contained respirator and protective clothing should be worn. Determine the need to evacuate or isolate the area according to your local emergency plan. Use water spray to keep fire exposed containers cool.

6. ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures : A self-contained respirator and protective clothing should be worn. Determine the need to evacuate or isolate the area according to your local emergency plan. Eliminate all possible sources of ignition.

6.2 Environmental precautions : Do not empty into drains. Prevent from spreading or entering into drains, ditches or rivers by using sand, earth or other appropriate barriers. Inform local authorities if this cannot be prevented.

6.3 Methods and materials for containment and cleaning up : Determine the need to evacuate or isolate the area according to your local emergency plan. Eliminate all possible sources of ignition. Very large spills should be contained by bunding, etc... procedures. Mop, wipe or soak up with absorbent material and place in a container with a lid. The spilled product produces an extremely slippery surface.
MOLYKOTE(R) D-321 R ANTI-FRICTION COATING

7. HANDLING AND STORAGE

7.1 Advice on safe handling: General ventilation is required. Local ventilation is recommended. Do not breathe vapour. Do not breathe spray or mist. Avoid skin and eye contact. Do not ingest. Do not empty into drains.

7.2 Advice on storage: Store in a flameproof, well ventilated area. Electrostatic charges may be generated during transfer of product from its container. Ensure that all equipment is electrically earthed. Keep container tightly closed. Vapours may form explosive mixtures with air. Storage temperature: maximum 40 °C

7.3 Specific uses: Refer to technical data sheet available on request.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

8.2 Exposure controls

Engineering Controls: Ventilation: Refer to Section 7.1
**Personal protection equipment**

**Respiratory protection**: Suitable respiratory protection should be worn if the product is used in large quantities, confined spaces or in other circumstances where the OEL may be approached or exceeded. A suitable respirator must be worn if the product is used in any circumstances where an aerosol or mist may be generated, such as during spraying or similar activities. Depending on the working conditions, wear a respiratory mask with filter(s) ABP or use a self-contained respirator. The choice of a filter type depends on the amount and type of chemical being handled in the workplace. Regarding filter characteristics, contact your respiratory protection supplier.

**Eye/face protection**: Safety goggles should be worn.

**Skin protection**: Wear impervious overalls in circumstances where significant skin contact can occur.

**Hygiene measures**: Exercise good industrial hygiene practice. Wash after handling, especially before eating, drinking or smoking.

**Additional information**: These precautions are for room temperature handling. Use at elevated temperature or aerosol/spray applications may require added precautions. For further information regarding the use of silicones / organic oils in consumer aerosol applications, please refer to the guidance document regarding the use of these types of materials in consumer aerosol applications that has been developed by the silicone industry (www.SEHSC.com) or contact the Dow Corning customer service group.

**Environmental exposure controls**: Refer to section 6 and 12.

The above information is not intended for use in preparing product specifications. Contact Dow Corning before writing specifications.

10. STABILITY AND REACTIVITY

10.1 Reactivity: None known.
10.2 Stability: Stable under normal usage conditions.
10.3 Possibility of hazardous reactions: None known.
10.4 Conditions to avoid: Eliminate all possible sources of ignition.
10.5 Materials to avoid: Can react with strong oxidising agents.
10.6 Hazardous decomposition products: Thermal breakdown of this product during fire or very high heat conditions may evolve the following decomposition products: Carbon oxides and traces of incompletely burned carbon compounds. Formaldehyde. Sulphur products. Nitrogen products.

11. TOXICOLOGICAL INFORMATION

Acute toxicity:
- On contact with eyes: Slightly irritating.
- On skin contact: Large amount in contact with significant skin surface areas may cause systemic adverse effects.
- If inhaled: Single exposure may cause transient drowsiness and dizziness.
- On ingestion: May be fatal if swallowed and enters airways.

Chronic toxicity:
- On skin contact: Repeated or prolonged contact may cause defatting of the skin, leading to dermatitis.
- If inhaled: May cause dizziness, drowsiness, confusion, headaches, nausea, and at high concentrations, unconsciousness.
- On ingestion: Smallest quantities reaching the lungs through swallowing or subsequent vomiting may result in lung oedema or pneumonia.

Toxicokinetics, metabolism and distribution: No specific information is available.
SAFETY DATA SHEET
According to article 31 and Annex II of the EU REACH Regulation

MOLYKOTE(R) D-321 R ANTI-FRICTION COATING

Other Health Hazard Information:
This product contains (a) powder(s) hazardous by inhalation. This is not relevant to the current physical form of the product, which is not in a respirable form. Product may emit formaldehyde vapour at temperatures above 150°C in the presence of air. Formaldehyde vapour is a suspected carcinogen, toxic by inhalation and irritating to eyes and the respiratory system. Exposure limits should be strictly respected.

1 Based on product test data.
2 Based on test data from similar products.

12. ECOLOGICAL INFORMATION

12.1 Ecotoxicity effects
Toxic to aquatic organisms and may cause long-term adverse effects in the aquatic environment.

12.2 Persistence and degradability
Organic solvents may evaporate into the atmosphere, where they degrade. The mineral oils in the product are biodegradable.

12.3 Bioaccumulation
Low potential to bioaccumulate.

12.4 Release to waters / Mobility in soil
Fate and effects in waste water treatment plants:
May cause adverse effects on bacteria. If used as intended this product is not expected to reach waste water treatment plants.

13. DISPOSAL CONSIDERATIONS

Product and packaging disposal:
This material must be disposed of as hazardous waste. Dispose of in accordance with local regulations. According to the European Waste Catalogue, Waste Codes are not product specific, but application specific. Waste codes should be assigned by the user, preferably in discussion with the waste disposal authorities.

14. TRANSPORT INFORMATION

Road / Rail (ADR/RID)

UN No. : UN 1993
Proper Shipping Name: FLAMMABLE LIQUID, N.O.S.(Butyl Acetate / Hydrocarbons)
Class : 3
MOLYKOTE(R) D-321 R ANTI-FRICTION COATING

Packing group : III
Labels : 3

Sea transport (IMDG)
UN No. : UN 1993
Proper Shipping Name : FLAMMABLE LIQUID, N.O.S.(Butyl Acetate / Hydrocarbons)
Class : 3
Packing group : III
Emergency Schedule (EmS) : F-E
S-E
Marine pollutant : Hydrocarbons
Zinc Oxide
Labels : flammable liquid

Air transport (IATA)
UN No. : UN 1993
Proper Shipping Name : Flammable liquid, n.o.s.(Butyl Acetate / Hydrocarbons)
Class : 3
Packing group : III
Labels : Flammable Liquid

15. REGULATORY INFORMATION

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

Status
EINECS : All ingredients listed, exempt or notified (ELINCS).
TSCA : All chemical substances in this material are included on or exempted from listing on the TSCA Inventory of Chemical Substances.
AICS : All ingredients listed, exempt or notified.
IECSC : All ingredients listed or exempt.
ENCS/ISHL : Consult your local Dow Corning office.

16. OTHER INFORMATION

This product safety data sheet was prepared in compliance with article 31 and Annex II of the EU REACH Regulation as well as its relevant amendments, on the approximation of laws, regulations and administrative provisions relative to the classification, packaging and labelling of dangerous substances and preparations.

It is the responsibility of persons in receipt of this Product Safety Data Sheet to ensure that the information contained herein is properly read and understood by all people who may use, handle, dispose or in any way come in contact with the product. If the recipient subsequently produces a formulation containing the Dow Corning product, it is the recipient's sole responsibility to ensure the transfer of all relevant information from the Dow Corning Product Safety Data Sheet to their own Product Safety Data Sheet in compliance with article 31 and Annex II of the EU REACH Regulation.

All information and instructions provided in this Safety Data Sheet (SDS) are based on the current state of scientific and technical knowledge at the date indicated on the present SDS. Dow Corning shall not be held responsible for any defect in the product covered by this SDS, should the existence of such defect not be detectable considering the current state of scientific and technical knowledge.

As stated above, this Safety Data Sheet has been prepared in compliance with applicable European law. If you purchase this material outside Europe, where compliance laws may differ, you should receive from your local Dow Corning supplier a SDS applicable to the country in which the product is sold and intended to be used. Please note that the appearance and content of the SDS may vary - even for the same product - between different countries, reflecting the different compliance requirements. Should you have any question, please refer to your local Dow Corning supplier.
